Questions and Answers – Round 2

Question 1:

Are there any rate restrictions/limitations for the proposed budget for the project? We would like to involve highly skilled personnel but with higher than average rates.

Answer 1:

There are no rate restrictions for individuals. As stated in the RFA, there are two grants being offered, the first grants is for \$135,000 and the second grant is for \$100,000. As long as the rates being offered to individuals are within the grant budgets, applicants are free to propose them. Please note that there will be no extra funding provided for implementing activities and for administrative tasks. Applicants need to ensure that labor costs and ODCs are within the mentioned budgets.
